THE ZONE OF TRANSITION · A TACTICAL RITE OF PASSAGE

How I climbed out with a *spreadsheet*

Every city has a **zone of transition** — the ring you want out of. Think Detroit: 8 Mile is the transition, 16 Mile is suburbia, eight miles further out. Getting from one to the other is one of the hardest moves a person makes. Our society lacks rites of passage, so I **forced one** — with a map, a week, and a tactics sheet.

1 · THE CONCENTRIC MAP

Pay attention to the map.

Port → zone of transition → suburbia → wilderness. Know which ring you live in.

2 · THE WEEK — CHRONOS & KAIROS

TUE	Chronos — time in chains
WED	Chronos — the work
THU	Chronos — the work
FRI	Disengage
SAT	Kairos — community & the happy day
SUN	Kairos — spiritual · PM: right-brain Sabbath
MON	Psychological · PM: left-brain Sabbath, the hearth

Chronos is clock time, put in chains. **Kairos** is the opportune, living time. The two Sabbath evenings — right brain Sunday, left brain Monday — reset the week.
